

## A New Bed for End of life Patients

Thanks to a very generous donation by Canadian Natural, patients at end-of -life will be able to rest on a new Umano medical bed at the Peace River Community Health Center. In April, Canadian Natural's Darcy Forman and Troy Robinson presented a cheque for \$25000 to the Peace Palliative Care Society towards a purchase of an Umano medical bed, that will allow those who have a terminal or life-limiting condition to rest comfortably while in hospital. This top of the line design also allows expansion, so the option is available for the patient's family and loved ones, to able to be close to them on their journey.

This bed is a welcomed addition to the Peace River Community Health Center due to the state of the art design, comfort, pressure reduction and safety. The Umano medical bed arrived mid-November and was placed into circulation within a few days.

The Peace Palliative Care Society would like to extend its gratitude and a heartfelt thank-you to Canadian Natural for their support and generous donation.
