

DEATH CAFE

What is death cafe?

Death cafe is a global movement providing a space to talk about life, loss, grief and gratitude. Are you curious, fearful, developing your beliefs, have stories to share, or have questions?

Who can attend a death cafe?

Everyone is welcome. All backgrounds, religions, cultures, and beliefs are invited to join our conversation in a safe, non-judgemental space.

Why attend a death cafe?

We believe that by discussing death, we can become more comfortable with this reality of life and thus, "make the most of our finite lives." We also believe that if "you don't know your options, you don't have any."
